Skill Highlights

Area of Expertise

- Leadership and Management
- Staff supervision and development
- Regulatory Compliance
- Trouble shooting and Repair
- Preventive Maintenance
- Problem Indication and Resolution

Software Skills

- >Microsoft office tools
- >SAP Functional Modules
- >Materials Management & Plant maintenance

Core Accomplishments

- Seasoned, dedicated, hands on professional with Thirteen years of experience in managing aircraft ground support equipment maintenance operations.
- Offers extensive experience in Ground support equipment industry while providing technical support in maintenance, inspection, dispatch, logistic and mobility activities.
- Adapt day to day maintenance activities, shift scheduling.
- Perform evaluation, Logistics support and follow up inspection on maintenance activities.
- Skilled in the administration and maintenance of key programs scheduling, supply bench- stock, Technical orders, time compliance modifications, hazardous waste ,tool control, equipment management and mobility.
- Achieved 95% quality assurance personal pass rate by closely monitoring more than 200 maintenance task, ensuring compliance with high standards.
- Proficient with Microsoft office tools (word, excel, power point).
- Insured high quality maintenance and on time task completion on all maintenance actions resulting in 97% equipment reliability and in-commission rate.

Professional Experience

ENGINEER -GSE
ROYAL FLIGHT

03/2017 to current
SULTANET OF OMAN-MUSCAT

- Maintain an on-going preventive maintenance program for all BUs within geographic responsibility. Identify trends in break downs, control maintenance costs relating to personnel, purchasing, inventory control and outsourcing of repairs.
