Pursuing senior level engineering assignments in Civil Construction especially in Residential & Commercial Buildings, Towers, Community Developments, Infrastructure Projects (Wastewater management), and Oil & Gas, with a leading high growth oriented organization in the Gulf Countries

Professional Synopsis

- ❖ A dynamic professional with **20 years(9 Years in Dubai with construction of High rise, Tower & Building experiences + 7 Years in Bahrain with O&G and infrastructure)** of rich experience in Project Management, Engineering and Construction Management.
- ❖ Demonstrative excellence in executing large-scale Community developments, Residential & Commercial Buildings, Towers, Infrastructure projects, Oil & Gas projects, etc.,
- ❖ **Vast experience in all kind of civil works: Buildings & Towers** - i.e. Earth works, all kind of Shoring systems, Piling, Dewatering, Waterproofing, Underground up to 3 floors and Over ground up to 55 floors, Connecting bridge, High-end finishing works, Sub-Station, landscaping works including of water supply, Sewerage and Drainage networks, underground lifting/pumping stations along with infrastructure works.
- ❖ **Vast experience in all kind of civil works: Infrastructure works(Waste water management)** – Construction of TSE Transmission networks, sewerage and Drainage networks, Major/Minor Pumping stations, Minor STP's, Earth works, Filling, Reclamation and Shore protection works along with Road improvements etc.,
- ❖ **Vast Experience in all kind civil works: Oil & Gas** – i.e. EPC Projects, Enabling works for Oil Well, Gathering stations, Tank Batteries, Power stations, Modification of GDU's, Gathering Stations, Tank Batteries, and All kind of Equipment plinths & Pipe Rack foundations etc.,
- ❖ Expertise in planning, executing and managing, building & construction of high value projects involving planning, executing and spearheading construction activities, Contract & Site Administration and Resource Planning with a flair adoption of modern methodologies in compliance with the quality standards.
- ❖ Resourceful in supervising all construction activities including provision of technical inputs for methodologies of construction & close coordination with the site management activities while ensuring compliance for various construction activities as per the norms and regulations.
- ❖ Strong relationship management, communication skills with the ability to network with project members, architects / external agencies / consultants / clients / sub-contractors and other utility agencies.
- ❖ Occurrence of safety measures implementation & monitoring.
- ❖ **Proficient in Fast Track environment**
- ❖ **Responsible & Key Person of the project**

Specialties

Infrastructure works

Oil & Gas

Villas/Buildings/Towers

Core Competencies

Project Management
Quality Assurance
Reporting & Documentation
Liaising

Construction Management
Safety Management
Billing, Claims & Variation
Resource Optimization

Planning & Execution
Methods & Compliances
Training & Development
Budgeting, Estimation & Tenders

Organizational Experience: Present

**Ministry of Works – Kingdom of Bahrain
Sanitary Engineering Planning & Projects Directorate (SEPPD)**

since Feb' 2012

Sr. Engineer - civil

Projects Undertaken

Direct contracts group-construction section is the Part of Ministry of Works - Sanitary Engineering Planning & Projects Directorate undertaken the construction of Major Sanitary Projects. i.e. New Sanitary networks (Sewerage & Drainage) along with Major/Minor Pumping/Lifting Stations, Major/Minor Sanitary Treatment plant's, Upgrading of existing networks, Upgrading of existing pumping/Lifting stations along with Asphalt reinstatement all over Bahrain under the direct supervision of Ministry's staff.

Key Deliverables

- ❖ Leading the Site team and being on-site person for MoW.
- ❖ Managing responsible construction supervision of infrastructure works.
- ❖ Responsible for administration of construction contract works, and assist the Project Manager with prompt Exchange of Correspondence, submittals, and RFI's to all contractors.
