Al Janabiya |Block 575|
Road 7537| Kingdom of Bahrain

ALI A.WAHAB AL-HAWAJ

MECHANICAL ENGINEERING

OBJECTIVE:

As a graduate student in Mechanical Engineering from University of Northumbria with honours degree, I'm very excited to use the knowledge and skills I have acquired during my years abroad. An engineering position at a progressive company will enable me to exploit my full potential and be of a vital significance to the company.

EDUCATION:

Bachelor Degree in Mechanical Engineering (2014-2018)

University of Northumbria Newcastle - United Kingdom.

High School (2012-2014)

Kanoo International School - Kingdom of Bahrain.

IGCSE (2010-2012)

Kanno International School - Kingdom of Bahrain.

TECHNICAL SKILLS

- Computer modelling and design
- Solidworks, FEA, CFD, MATLAB
- Experienced in Microsoft Office Software's
- Communication, Leadership and Time Management

WORK EXPERIENCE:

- Experienced in operating equipment and machines including Hardness, tensile testing machines, cutting machines and hydraulic presses for the fabrication of mechanical components.
- Handled welding assignments that involved installing, repairing and fabricating materials (sheet metal, steel, tools, parts, doors, gates and more). Became adept at reading blueprints/drawings and fulfilling work orders.

PROJECTS BASED WORK:

- Final Year project (Indentation size effects in steel)
- Design Projects Created models using Solidworks
- Designed and built aluminium bridges

LANGUAGES:

- Arabic: (Native)
- English: (Fluent)

INTEREST:

- Sport (football-volleyball)
- Travelling
- Watching series
