SUMMARY

Civil Engineer with 7 years of experience in Saudi Arabia across building, infrastructure, industrial, refinery, maintenance and shutdown projects. Experienced in site execution, construction supervision, structural and concrete works, underground utilities, excavation, foundations, manholes, rebar, formwork, inspections, testing, subcontractor coordination and progress reporting. Strong ability to coordinate with consultants, contractors, operations and safety teams while maintaining quality, safety and project requirements.

CORE COMPETENCIES

- Civil Site Execution & Construction Supervision
- Foundations, Rebar & Formwork
- Excavation, Backfilling & Compaction
- Industrial Civil Maintenance & Shutdown Works
- Subcontractor & Workforce Supervision
- Progress Tracking, Site Reporting & Documentation
- Structural & Reinforced Concrete Works
- Underground Utilities, Service Trenches & Drainage
- Manholes, Hydrotesting & Material Inspection
- Refinery / Petrochemical Site Coordination
- Consultant / Client Coordination
- Quality, Safety & Inspection Coordination

PROFESSIONAL EXPERIENCE

Civil Site Engineer 02/2026 – 07/2026

Jawar AlJazira Construction and Building Co. | SEARA Industry Building | Jeddah, KSA

- Supervised daily construction activities in accordance with approved drawings, specifications and project requirements.
- Monitored labor, subcontractors and equipment and coordinated site activities to maintain progress.
- Inspected excavation, foundations, concrete works, reinforcement, masonry and finishing works.
- Coordinated concrete, soil and construction-material testing and followed up inspection requirements.
- Conducted site walk-throughs, checked reinforcement before concrete pours, monitored concrete placement and curing, and prepared daily progress reports.

Civil Site Engineer 08/2025 – 01/2026

ANABEEB / KAREENA | Aramco Refinery Facilities (SASREF, SATORP) | Jubail, KSA | Civil Maintenance & Shutdown Works

- Executed civil maintenance and shutdown activities within live refinery environments under strict safety protocols.
- Supervised refractory lining installation for furnaces and reformer equipment in accordance with approved procedures.
- Managed concrete repair, grouting, surface preparation and structural maintenance activities.
- Coordinated protective coating applications in accordance with refinery corrosion-protection requirements.
- Tracked daily productivity and resources to support shutdown schedules and coordinated with operations, safety teams and inspectors for permits and activity approvals.

Civil Site Engineer 01/2025 – 07/2025

PETRO-V, Petroleum Vision Contracting Company | North Jeddah Bulk Plant | Fire Water Pipe Upgradation

- Reviewed drawings and specifications and supervised excavation, foundation and manhole construction activities.
- Monitored compaction, concrete mix, curing and alignment in accordance with project standards.
- Enforced safety measures for deep excavation and confined-space activities.
- Inspected materials including reinforcement, formwork, pipes and concrete.
- Coordinated with consultants, contractors and other disciplines; maintained schedules and daily progress reports.
- Overseen load tests, compaction tests and hydrotests for manholes and maintained inspection documentation.
- Supported cost control by monitoring material usage and minimizing wastage.

Civil Engineer 07/2022 – 10/2024

E Vision General Contracting Company | STC Administration Building | Riyadh, KSA

- Supervised site preparation, surveying and setting-out in accordance with design specifications.
- Monitored construction progress and managed routine and complex site issues to keep work on schedule and within budget.
- Prepared site reports and coordinated with architects, contractors and clients for smooth project execution.
- Implemented cost-saving measures without compromising construction quality or safety.
- Supervised junior engineers and technicians and provided technical guidance.
- Conducted site inspections, identified potential issues, implemented corrective measures and supported project risk assessments.

Civil Engineer 01/2021 – 06/2022

Shapooji Pallonji | NEOM, KSA

- Supervised construction activities to ensure architectural designs were executed correctly.
- Interpreted architectural plans, shop drawings and specifications for construction teams.
- Ensured compliance with applicable building requirements and safety standards.
- Conducted regular site inspections to verify construction quality against approved plans.
- Coordinated with structural, MEP and other disciplines to resolve site issues.

Civil Engineer 12/2019 – 12/2020

China National Chemical Engineering Company | SADAF EOP Project | Jubail, KSA

- Worked on concrete structural elements including foundations, beams and walls.
- Presented designs to clients, senior engineers and project managers.
- Supervised junior staff, contractors and subcontractors.
- Performed regular site visits, inspections, audits and surveys while working to strict project deadlines.
